

I was born in Yambol on 24.04.1972. I graduated from High School of Mathematics in my home town and the Law Faculty of the Bourgas Free University. I am entered in the Sofia Bar Association. Eighteen years ago I founded the law office Rosica Hristova in the town of Bourgas. During the past years the office has carried out various activities in the field of civil law – litigation before the court, registrations, conversion and re-registration of sole traders and legal entities, preparation of contracts and notary deeds, but the priorities were dealing with subscription legal service of leading construction companies and financial institutions.

I have command of written and spoken English and Russian language. Besides Bulgarian citizens and companies, the office also represents foreign physical and legal persons from Italy, Spain, Russia, Britain, Armenia, Turkey, Finland, Cyprus and South Africa.
